Task Assignments:

Task Description	Assigned to
How to page formatting	Gage
Youtube Data API implementation	John
Fix merge conflicts with eBay implementation	Jacob
Pull/Parse listings from Facebook	Alex

Minutes from Previous Meeting

JavaScript for searching eBay was created. Work for Youtube API implementation was divided. Gage will work on the iFrame API for displaying youtube players on the site while John works on the Data API to search videos from Youtube. The Facebook API is being queried successfully, however there were issues encountered working with the git repository.
